* Includes assets in Theta managed accounts

Fund Strategy & description

TDCOP will allocate to 4-8 specialist managers at any time, depending on the evolving opportunity set, with a focus on investing in dislocated credit instruments and distressed debt and restructuring opportunities.

TDCOP will allocate to managers in the structured credit, corporate and sovereign credit space in both developed and emerging markets that have the experience and infrastructure to capitalize on the increased volatility and dispersion in markets as well as anticipated restructurings and liquidations.

Attractive investment opportunities have been limited for distressed debt managers in recent years. We have used this period to secure capacity with the best managers who have been closed to new capital but are now opening up to capitalize on the suddenly vastly expanded opportunity set.

2022	0.18%												0.18%	-0.61%

Co-Investment

Theta Capital Management offered investors to join a co-investment in ZAIS Zephyr 7 Fund per October 1st 2020. The investment offered a highly attractive opportunity to invest in CLO tranches at dislocated prices.

The investment was offered to qualified investors as a co-investment directly into the fund as the liquidity structure of the investment did not fit TDCOP.

Per December 2021 the investment has been fully returned to investors and has generated a net fund return of 39% IRR to investors (excluding fees charged by Theta Capital Management) over a 14 month period.

The value of your investment may fluctuate. Past performance provides no guarantee for the future.
